

HEALTH SERVICES

WHAT WE DO

A-TEK develops leading-edge software and technology solutions, supporting the optimization, search, analysis, and dissemination of biomedical data critical to federal health missions.

SERVICES WE OFFER

- Creating data models, conducting data integration, data fusion, data mining, and development of highly customized and efficient software tools/APIs for optimized search, analysis, and dissemination of data
- Using smart data mining methods with advanced, customized data visualization techniques – enabling well-informed risk assessment, preemptive interception, prevention, and time-critical response to any biological, human health, or cyber security risk or threat
- Enhancing data collection, transformation, distribution, and sharing capabilities to help healthcare and research organizations improve predictions and decision making

OUR VALUE PROPOSITION

- **Increased efficiency and reduced cost** using a Continuous Development and Continuous Delivery model (CD-CD) augmented by the Agile methodology and DevOps culture
- **Enhanced techniques for big data management and visualization**, reducing data volume and enhancing capabilities for data collection, management, advance search, retrieval, and dissemination
- **Fully automated management of the build-integrate-test-release cycle**, with streamlined techniques for Continuous Development (CD), Continuous Integration (CI), and Continuous Deployment
- **Enterprise Service Bus (ESB), Java/JMS, and ActiveMQ-driven solutions** that make data instantly available and actionable by any system, application, or business process on the network

MISSION

To consistently deliver high-value services and solutions that advance critical government missions; foster a dynamic culture of innovation to effectively meet our customers' strategic goals; and provide an enriching, purpose-driven work environment that nurtures our greatest asset – our employees.

One Team. One A-TEK.

VISION

To lead with acuity and innovation in providing scientific and IT services and solutions that create greater efficiencies, security, and compliance, resulting in a consistent cadence of superior customer service.

CONTRACT VEHICLES:

- CIO-SP3 Unrestricted
- GSA Schedule 70
- GSA Schedule 66
- GSA Professional Services Schedule (PSS)
- VA/GSA Schedule 621 I

*Redefining the Possible
Through Science and IT*

OUR TOOLS, TECHNIQUES, AND TECHNOLOGIES

- Enterprise Service Bus (ESB), Java/JMS, and ActiveMQ
- Infrastructure as a Service (IaaS)
- Software as a Service (SaaS)
- Software applications programming languages and frameworks
- Web portal development, web services, and web applications
- Databases/mapping frameworks
- Software repository, building, integration, deployment, and CM tools
- Unit, functional, integration, and regression test suite automation

WHO WE SERVE

Federal Civilian

U.S. Health and Human Services (HHS)

National Institutes of Health

- National Library of Medicine
- National Institute of Allergy & Infectious Diseases (NIAID)
- National Center for Biotechnology Information (NCBI)
- National Institute of Diabetes & Digestive & Kidney (NIDDK)
- National Eye Institute (NEI)
- National Institute of Arthritis & Musculoskeletal & Skin Diseases (NIAMS)

Food and Drug Administration (FDA)

U.S. Department of Agriculture (USDA)

Department of Justice (DOJ)

- Federal Bureau of Investigation
- Justice Management Division
- Office of Justice Programs

Department of Commerce

National Security

U.S. Department of Homeland Security (DHS)

- Transportation Security Agency (TSA)
- Federal Air Marshal Service (FAMS)
- Office of Health Affairs (OHA)

"I can genuinely endorse A-TEK for their ability to understand our mission and operational structure and most of all, accomplish the goals of providing users worldwide with a highly robust and technically advanced IT infrastructure to meet their needs."

- National Institutes of Health
