

LAW ENFORCEMENT

WHAT WE DO

For over a decade, A-TEK has combined its technical and operational expertise to support U.S. federal agencies in their missions to enforce the law and administer justice. From identifying user requirements to injecting strict quality assurance/control measures into every project, A-TEK partners with federal and local law enforcement agencies to retrieve and analyze critical legal, investigative, and criminal data to enable rapid decision making.

SERVICES WE OFFER

- Lean Six Sigma implementation
- Quality assurance/quality control
- Development of Standard Operating Procedures (SOPs)
- Database development, modeling, analysis, and tracking
- Defining and execution of production system improvements
- Operations and maintenance of networks (hardware and software)
- System administration and upgrades
- Digitization, development, traceability, and tracking of legal records and data
- Project management
- Acquisition and budget management

OUR VALUE PROPOSITION

- Workflow improvements that increase efficiencies
- Optimization of business models for database and business modeling
- Insight, strategies, and tactics for leveraging technologies to improve operations
- Improved intelligence and data collection to empower research, analyses, and thorough investigations

MISSION

To consistently deliver high-value services and solutions that advance critical government missions; foster a dynamic culture of innovation to effectively meet our customers' strategic goals; and provide an enriching, purpose-driven work environment that nurtures our greatest asset – our employees.

One Team. One A-TEK.

VISION

To lead with acuity and innovation in providing scientific and IT services and solutions that create greater efficiencies, security, and compliance, resulting in a consistent cadence of superior customer service.
