About A-TEK

A-TEK, Inc. partners with Federal agencies to modernize digital missions through cloud modernization, cybersecurity, agile engineering, data intelligence, and mission support. A-TEK supports Federal health, civilian, and national security customers.

1430 Spring Hill Road, Suite 450, McLean, VA 22102 | 703-443-6900 | www.atekinc.com

SEWP VI Overview and Scope

NASA SEWP (Solutions for Enterprise-Wide Procurement) VI provides Federal agencies and approved contractors access to Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services. The program supports Federal acquisition through a Government-Wide Acquisition Contract structure and an online quote request process.

A-TEK holds two SEWP VI service category contracts

Category B: Enterprise-Wide ITC/AV Service Solutions (80TECH26D0471)
Category C: Mission-Based ITC/AV Service Solutions (80TECH26D1609)

What's in Scope for SEWP VI

SEWP VI is designed to provide a broad suite of ITC/AV solutions and services. A-TEK supports requirements under the Category B and Category C service scopes, subject to the products and services available on A-TEK's SEWP VI contracts and the specific terms of each request for quote.

CATEGORY B

Enterprise-Wide ITC/AV Service Solutions

Contract 80TECH26D0471

CATEGORY C

Mission-Based ITC/AV Service Solutions

Contract 80TECH26D1609

A-TEK Capability Areas

Cloud Modernization Secure cloud adoption, migration, and infrastructure modernization.	Cyber Solutions Cybersecurity, resilience, monitoring, and security engineering.	Agile Engineering Modern application engineering, DevSecOps, automation, and user-centered delivery.
Data Intelligence Data governance, analytics, automation, and mission-focused insights.	Digital Transformation Modernization of platforms, processes, and technology-enabled mission services.	Mission Support IT management, program support, governance, and operational support.

Scope determination support: Customers may send an overview of the requirement and/or bill of materials to help@sewp.nasa.gov for NASA SEWP scope review.

Fair Opportunity

In accordance with FAR 16.505(b), contractors are provided fair opportunity to be considered for individual orders, as appropriate. The SEWP online Quote Request Tool supports this process. Order-selection documentation is maintained by the issuing procurement office.

Typical SEWP VI Ordering Process

1	Define the requirement The Government end user determines the requirement and prepares the applicable purchase request and supporting documentation.
2	Route through the agency procurement office The purchase request and required funding information are sent to the issuing agency's procurement office.
3	Issue the Delivery Order The issuing agency evaluates responses and issues the Delivery Order using its authorized Federal agency ordering process.
4	SEWP PMO processing The NASA SEWP Program Management Office reviews, processes, and tracks issued Delivery Orders and forwards them to the selected Contract Holder.
5	Process modifications through SEWP Any modifications to an order must also route through the NASA SEWP Program Management Office.

Order Issues and Post-Delivery Support

For order status, installation coordination, warranty questions, technical support, software support, post-delivery issues, or troubleshooting, contact the A-TEK SEWP Program Management Team. A-TEK will coordinate the appropriate order-specific support based on the Delivery Order, applicable product or service terms, and SEWP contract requirements.

- Provide the Delivery Order number and agency point of contact when available.
- Describe the issue, requested action, and any relevant delivery or support date.
- A-TEK will coordinate resolution with the applicable delivery and support parties and engage the SEWP PMO when needed.
